

**Model:** ph-3124toppa

**Code Name:** Osprey

**Drivers:** Two 12" woofers and one 4" compression driver

**Frequency Response:** 70Hz - 20,000Hz

## Evolutionary / Revealing / Capable

**Capable.** -adjective: having power and ability; efficient, competent. The Pressurehead **Osprey** is a very powerful, efficient, and capable speaker. Able to idle at volumes most speakers dream of achieving, the Pressurehead **Osprey** is a formidable foe in the world of high end pro-sound speakers. The Osprey utilizes a mid-tweeter-mid D' Appolito configuration to achieve quasi-time alignment characteristics. The clarity, imaging, and transparency of the **Osprey** is revolutionary in a sea of muddy competitors.

Like an Osprey hovers on wing, focusing on its prey, surgically striking. The Pressurehead Osprey will cover your audience with audio focus, clarity, and imaging like you've never heard before.

These speakers are perfect for your live sound venue, outdoor concert event, or the ultimate killer speaker for your nightclub.
